## ABOUT ME

I'm Michael, a computer science student of Kumasi Technical University. A passionate and curious individual exploring the endless possibilities of computer science. From building websites and solving algorithmic puzzles to understanding how systems work behind the scenes, I love turning ideas into real, functional tech. With a background in IT and a strong foundation in programming, I enjoy creating solutions that are both innovative and efficient. I'm always learning, whether it's a new language, framework, or diving into AI, cybersecurity, or data science. When I'm not coding, you'll find me sharing tech tips, helping others understand complex concepts in simple ways, or exploring how technology can make everyday life better. I believe in growth, collaboration, and using technology as a tool to shape the future.

## WORK EXPERIENCE

### Great vision international school

Mid level | Teaching  
Kumasi, Ghana  
2024-10-01 | 2025-01-01

I was teaching all subjects in basic three right after I graduated from senior high school but now an evening student of Kumasi Technical University offering computer science. I am very good when it comes to IT, some of my skills was self taught just don't have the certificate/ degree

### Ahinsan Communication Team

Mid level | Assistant Broadcast supervisor and a camera operator  
Kumasi, Ghana  
2019-01-01 | Currently working here

It's a seventh day Adventist church communication team. We stream our church service live via Facebook and YouTube and I am an assistant Broadcast supervisor and a camera operator. We work on Saturdays only that is why I still work there and I am also an Adventist and member of the church
